very well - presented, interesting, fun. Good points shown

Can the help section could be longer

HE IS THE BEST CLASS TEACHER I HAVE MET SO FAR.

CONVINCE HIM TO STAY IN ACADEMIA, AS WE NEED GOOD LECTURERS!

VERY GOOD AT EXPLAINING, VERY KNOWLEDGEABLE ABOUT THE SUBJECT, ALWAYS AVAILABLE AND HELPFUL.

- Goes through technique for each example very well.
- Simplifies the course so it is easy to understand.

The class could go a bit faster so that we can go through more questions in class.

- the notes he made in class are quite useful and clear
- he teaches clearly
- he may cover more questions each time
- feedbacks of homework are useful

Keeps it lively, interesting. Solves/Teaches what is most important/necessary.
Best class of the 4!

Helpful - v. hardworking
makes classes stimulating

His topic summaries are very good - He always goes through the difficult questions quite well

Bar making a few numerical errors on the board, his explanations are superb. He is probably the most methodical teacher I have ever had which really helps with MA100.

He gives us really useful notes + summaries.

However, I think it would be useful if he went through some of the harder unbarred questions.

Very good summary.

Gives good notes when explaining & rules to follow about questions.

He is a great teacher, Organized, intellectual and truly inspiring.

Very good at explaining material and ~~is~~ ~~is~~ going through exercises. Gives us general solutions so we can apply them again rather than just ones in exercise. Makes classes interesting and explains material very thoroughly and helpfully.

- Going through Both Calculus & Algebra in a class.

Generally excellent use of time.

Cover more of the examples in class

I think that his pace is just nice and he goes through each question in detail especially the difficult ones is a plus.

Particularly helpful: methods are clarified in class. Occasionally lectures are quite hard to follow so this helps to understand how to tackle exam style questions.

Be nice to have more time, but probably can't happen, always very clear and helpful.
excellent explanations

I think the summary bit at the end of each class is really helpful
and I think the classes are very structured and organised!

Helpful:

Writing comments in exercise sets not just correct or wrong.

Extremely detailed when explaining a ~~particular~~ particular problem.

Provides good basic (knowledge + tips) that helps improve ~~the~~ the ~~skill~~ problem-solving skills.

The teacher is very helpful in explaining the course materials, very clearly.

~~the~~ Good explanation of concepts which will normally cause confusion.

Different textbooks should be used for the calculus ~~and~~ section.
 2 extra example sessions instead of 1 - these are extremely helpful.
 (after box-2.10) - ^{more} notes provided on content.

- very clear in communicating & teaching the course material.
- Could maybe do more questions with us in class from the exercise.
